Beware of vapors accumulating to form explosive concentrations.
Vapors can accumulate in low areas.
For personal protection see section 8.

Environmental Precautions

Prevent further leakage or spillage if safe to do so.
Do not let product enter drains.

Methods and Materials for Containment and Cleaning-up

Discharge into the environment must be avoided.
Soak up with inert absorbent material and dispose of as hazardous waste.

Threshold Limit Value: ACGIH 0.005ppm
National Institute for Occupational Safety and Health

Engineer Controls

Use process enclosures, local exhaust ventilation, or other engineering controls to keep worker exposure to airborne contaminants below recommended exposure limits.
Wear appropriate personal protective equipment where such systems are not effective to perform satisfactorily and meets OSHA or other recognized standards.
Handle in accordance with good industrial hygiene and safety practice.
Wash hands before breaks and at the end of workday.
